DSL & Cable Internet

Product Description

EnTelegent Solutions DSL and Cable Internet is a family of broadband technologies that provides asymmetrical data transmission using fiber and copper facilities.

Our underlying partner infrastructure incorporates an extensive network of relationships designed to deliver solutions that are among the best in the industry, including hybrid and mixed access solutions with DSL and cable access options.

Additional benefits include world-class service levels and a comprehensive, easy to use customer portal to manage complex enterprise environments.

EnTelegent leverages best-in-class technology and service offerings, combined with aggressive pricing and a world-class support infrastructure, to provide industry leading managed communications solutions to the business community.
