COMTEC Consulting

Energy Cost Reduction Service

Dedicated to reducing energy costs for business

Why ComTec

Market Intelligence

Our industry leading team creates a customized cost reduction strategy for you based on your unique needs, using our industry knowledge and proprietary tools (EAP).

Transparency

We RFP to a network of over 100 different suppliers to compete on your behalf. We are not tied to just one or a few suppliers and are completely unbiased, securing the lowest rate.

Large Scale Buying Power

ComTec leverages large volumes of telecom and energy under management which provides you the benefit of buying power that you could not achieve on their own. *We buy energy at wholesale rates directly through our affiliated trading desk*.

Centralized Purchasing

Financial benefits and RFP management
Coterminous Agreements

Visibility With Technology

The Energy Analytics Portal (EAP) provides a complete and customizable picture of the market, your usage and spend, making it simple to identify cost savings and to buy at the lowest rate.

- Manage energy efficiently in real time
- Compare your current vs historical energy demand
- Identify anomalies
- Track of all your energy contracts, usage, and bills
- Set price triggers and market alerts
- Track market data
- Demand Side Management
- Budgeting
- Inventory
- Auditing

Only Positive Impacts to Your Business

- No interruption of service, your distributor simply gets your energy from a new supplier
- No change to where your bills come from or the timing of them. You simply will have lower supplier rates.
- Access to our proprietary Energy Analytics Portal and team of experts
- 3 year contracts allow you to lock in low rates well into the future

No Risk
Minimal Client Requirement
Major Results

5 Steps to Implement

1. ComTec gathers vendor energy contracts from client
2. ComTec performs an assessment of rate structures/terms
3. ComTec develops optimization strategy/establish client's benchmark spend
4. Client/ComTec consultation to explain options
5. ComTec implements client approved plan with the vendors
