WIRELESS COST REDUCTION

Reducing wireless expenses is our core business.

Wireless Cost Analysis

Let us help you manage wireless telecom expenses, while making your carrier relationship favorable and advantageous.

Managed Wireless Services

OpDecision continuously identifies cost savings opportunities and implements changes proactively on an on-going basis.

Wireless Contract Negotiations

Overpaying on your wireless? Let us help you maximize cost reduction and carrier incentives through cellular negotiation and re-negotiation.

Risk free cost reduction projects proven to provide 10% to 45% worth of savings.

Wireless Expertise

- Benefits organizations with 50 - 25,000 wireless devices (cell phones, iPads, air cards)
- Attain unpublished pricing and non-commissioned rates - 60% to 70% of the savings is derived from unpublished rates, unique rate structures and promotional discounts which TEM does not have embedded within their software
- Recover credits for billing errors, overcharging and carrier negligence
- Access larger corporate wireless rate discounts
- Keep your current: wireless carrier(s), contract, existing equipment and wireless carrier representative
- Avoid costly software fees
- On average OpDecision provides 27% in savings for clients and averages 20% in savings for clients utilizing a TEM or 3rd Party Service without interfering with their relationship

Best in Class Process

OpDecision has developed a 3-stage "Best in Class" process, based on the ability to benchmark, optimize and implement with a two hour time investment from our clients.

1 **BENCHMARK**
Day 1- *OpDecision benchmarks your current wireless plans.*

2 **OPTIMIZE**
Day 14- *A report is presented with insights and change recommendations.**
** Client approves changes*

3 **IMPLEMENT**
Day 30- *Changes are implemented and wireless savings begin immediately.*
